15 year warranty

SUPA-SPAN ARCHED SERIES

As a leading international fabric structure specialist, Global remains at the cutting edge of design, engineering and technology and is known for providing innovative structure solutions of the highest quality.

The Supa-Span Arched structures offer large, clear span designs that span 97m/318ft in width. The Supa-Span Arched Series is a versatile design that is suitable for a variety of applications including warehousing, sports and recreation, aircraft hangars, workshops and stockpiles.

SUPA-SPAN ARCHED BENEFITS:

-  Spans of 97m/318 ft in width (very high internal height)
-  Industry leading 15 year warranty
-  Precision engineering to Australian and international standards
-  Premium PVC fabric with PVDF top coat
-  High strength steel frame with Hot Dip Galvanised Finish
-  Designed for both semi-permanent and permanent installations
-  Modular design allows for unlimited length
-  Rapid, low-cost installation
-  Translucent fabric options provide a well-lit, energy efficient, interior space
-  Fully patterned and tensioned Fabric for a drum tight finish
-  Accessories available such as; doors, lighting, ventilation, HVAC, insulation liners etc

Supa-Span A profile is designed as an arched frame assembly with 97m/318ft standard span. Smaller spans can be engineered to meet your exact needs.

SUPA-SPAN ARCHED (SS - A) DATA AND SPECIFICATIONS

Width	Length	Bay Spacing	Peak Height Outer
97m/318ft	Modular on 6.1m / 20' 5/32" bays	6.1m / 20' 5/31"	25.96m / 85' 2 3/64"

STANDARD FABRIC

- Premium Ferrari 802S - PV Coated Polyester
- Tensile strength: 280/280 daN/5cm
- Warranty: 15 Years
- Flame retardancy: AS/NZ1530.3 - M2/NFP-92-507
- Standard Colour: white translucent
- 802S Colour Options: mastic, champagne & sandy beige
- Weight: 850 GSM

OTHER FABRIC OPTIONS

- Combinations of colour or translucent and blockout to create skylight effect
- Additional colours available on request
- Alu outer / black inner (Ferrari 702)
- Ferrari 702S - 7 year warranty (cost saving)
- White blockout (opaque)
- PE Fabrics - (cost saving)

STRUCTURAL FRAME

- 15 Year Warranty
- Grade 8.8 galvanized bolts
- High strength structural steel truss
- Galvanized bracing cables
- Hot dip galvanized finish (for extreme corrosion protection)
- Structural Frame Options:**
3 coat paint finish on request
- Fabricated under SO9001:2008

ACCESSORY OPTIONS

- Hard side walls
- Vehicle access doors
- Lighting systems
- Ventilation systems (louvers and fans)
- Acoustic fabric liners
- Internal fabric liners (improved insulation and acoustics)
- Personal doors

FOUNDATION OPTIONS

- Chemset anchors or cast-in bolts
- Earth anchors - steel stakes / screw piles
- Concrete footings - bored piers, strip or pad footings
- Ballast - concrete weights (for interim options)
